ASSESSMENT 3 BRIEF	
Subject Code and Title	PBT205—Project-based Learning Studio: Technology
Assessment	Product demonstration and post-implementation report
Individual/Group	Individual and Group
Length	Individual contribution (500 words +/–10%) Group reflective report (1,500 words +/–10%)
Learning Outcomes	The Subject Learning Outcomes demonstrated by the successful completion of the task below include: a) Work cooperatively to plan, design, produce and manage a software prototype utilising advanced techniques and where applicable, emerging technologies; b) Reflect on the development of a project from a variety of interpersonal and technological perspectives; and e) Demonstrate software engineering skills required in a software development team.
Submission	12-Week Duration: Due by 11:55pm AEST/AEDT, Wednesday of Week 12 6-Week Duration: Due by 11:55pm AEST/AEDT, Wednesday of Week 6
Weighting	40%
Total Marks	100 marks

Task Summary

- Report and project demonstration.
- The focus of this assessment is to:
  - Report the results of the project against the plan;
  - Determine the project's success;
  - Reflect on lessons learned in terms of both the group and individual experience; and
  - Demonstrate the chosen theme and extend the code to the specifications.
- 1,500 words for the group reflection and 500 words for the individual reflection.
- This Assessment has both a group and an individual component.

Context

By nature, a project must end. Once this occurs, the project team should close and handover the project to the client for sign-off and payment for the final product. To obtain sign-off, the project team should produce an end criteria for the project, which is usually derived from the project's goals and objectives and the success criteria that were established and agreed to at the beginning of the project.

Typically, a project team demonstrates the product for acceptance and client testing. Once there is agreement that the system is working properly (within acceptable tolerances), the product can be deployed and go-live for a success launch. This is a more technical end to a project.

Conversely, from a project management perspective, a project needs to be completed in terms of reporting on the project plan, how the project performed and how similar projects could be improved in the future. An administrative handover also needs to be undertaken, which may require consideration being given to documentation, the source code, contracts, payments, open risks or issues, defects, project sign-offs, project reports, etc.

This Assessment aims to emulate the project finalisation described above by incorporating the completion of the final product with a report that clearly outlines the project's success or failure in meeting its scope and objectives.

Task Instructions

To complete this Assessment task, you must demonstrate key skills in the evaluation of a project and the completion and demonstration of the chosen theme from Assignment 2.

To complete this Assignment, you will need to:

- Submit a final report (in the prescribed report format) and demonstrate the extension of the chosen theme;
- Comply with the marking criteria for the Assignment;
- Address the following areas, which you learned about in previous modules and lab exercises:
    - The Background and Objectives;
        - The scope and purpose of the post-implementation review;
    - The outcomes of the project in terms of its:
        - Scope;
        - Schedule;
        - Costs;
        - Quality; and
        - Risks/Issues;
    - Complete the group reflection;
    - Complete the individual reflection; and
    - Present a 5–10-minute working demonstration of the solution and the code.

Referencing

It is essential that you use APA style to cite and reference your research. For more information on referencing, visit our Library website at http://library.laureate.net.au/research_skills/referencing.

Submission Instructions

Submit digital presentation slides/notes via the **Assessment** link in the main navigation menu in PBT205—Project-based Learning Studio: Technology. The learning facilitator will provide feedback via the Grade Centre in the LMS portal. Feedback can be viewed in My Grades.

Academic Integrity Declaration (Student Undertaking)

Individual Assessment Tasks

I declare that the work I am submitting for this assessment task is my own work. I have read and am aware of the Torrens University Australia Academic Integrity Policy and Procedure, viewable online at http://www.torrens.edu.au/policies-and-forms.

I am also aware that I need to keep a copy of all submitted material and any drafts and I agree to do so.

Group Assessment Tasks

We declare that the work we are submitting for this assessment task is our own work. We have read and are aware of the Torrens University Australia Academic Integrity Policy and Procedure, viewable online at http://www.torrens.edu.au/policies-and-forms.

We are also aware that we need to keep a copy of all submitted material and any drafts and we agree to do so.

Assessment Rubric

Assessment Attributes	Fail (Yet to achieve minimum standard) 0–49%	Pass (Functional) 50–64%	Credit (Proficient) 65–74%	Distinction (Advanced) 75–84%	High Distinction (Exceptional) 85–100%
Part A: Knowledge and understanding of Background and Objectives: • *Scope, purpose, objectives of the PIR* **5%**	Demonstrates a partially-developed understanding of Scope, purpose, objectives of the PIR	Demonstrates a functional knowledge of Scope, purpose, objectives of the PIR	Demonstrates proficient knowledge of Scope, purpose, objectives of the PIR	Demonstrates advanced knowledge of Scope, purpose, objectives of the PIR	Demonstrates exceptional knowledge of Scope, purpose, objectives of the PIR
Part B: Knowledge and understanding of Outcome of Project Scope: • *Functional Requirements* • *Technical Requirements* **10%**	Demonstrates a partially-developed understanding of • *Functional Requirements* • *Technical Requirements*	Demonstrates a functional knowledge of • *Functional Requirements* • *Technical Requirements*	Demonstrates proficient knowledge of • *Functional Requirements* • *Technical Requirements*	Demonstrates advanced knowledge of • *Functional Requirements* • *Technical Requirements*	Demonstrates exceptional knowledge of • *Functional Requirements* • *Technical Requirements*
Part C: Knowledge and understanding of Outcomes of the Project Knowns and Unknowns: • *Assumptions* • *Risks* • *Constraints* **5%**	Demonstrates a partially-developed understanding of • *Assumptions* • *Risks* • *Constraints*	Demonstrates a functional knowledge of • *Assumptions* • *Risks* • *Constraints*	Demonstrates proficient knowledge of • *Assumptions* • *Risks* • *Constraints*	Demonstrates advanced knowledge of • *Assumptions* • *Risks* • *Constraints*	Demonstrates exceptional knowledge of • *Assumptions* • *Risks* • *Constraints*
Part D: Knowledge and understanding of Outcomes of the Project Schedule: • *Schedule / Timeline / Milestones* • *Deliverables* • Resource Plan / Cost	Demonstrates a partially-developed understanding of • *Schedule / Timeline / Milestones* • *Deliverables*	Demonstrates a functional knowledge of • *Schedule / Timeline / Milestones* • *Deliverables*	Demonstrates proficient knowledge of • *Schedule / Timeline / Milestones* • *Deliverables*	Demonstrates advanced knowledge of • *Schedule / Timeline / Milestones* • *Deliverables*	Demonstrates exceptional knowledge of • *Schedule / Timeline / Milestones* • *Deliverables*

Assessment Attributes	Fail (Yet to achieve minimum standard) 0–49%	Pass (Functional) 50–64%	Credit (Proficient) 65–74%	Distinction (Advanced) 75–84%	High Distinction (Exceptional) 85–100%
10%	• Resource Plan / Cost	• Resource Plan / Cost	• Resource Plan / Cost	• Resource Plan / Cost	• Resource Plan / Cost
Part E: Knowledge and understanding of Outcomes of Project Quality: • *Test Results* **10%**	Demonstrates a partially-developed understanding of Test Results	Demonstrates a functional knowledge of Test Results	Demonstrates proficient knowledge of Test Results	Demonstrates advanced knowledge of Test Results	Demonstrates exceptional knowledge of Test Results
Part F: Effective Communication (Written) *Reflection on Group Experience: Clarity and presentation of the report* **15%**	• *Lack overall organization* • *Very difficult to follow* • *Grammatical and spelling errors make it difficult for the reader to interpret the text in many places*	• *Not well organised in most of the part* • *Difficult to follow* • *Choice of words needs to be improved* • *Grammatical errors impede the flow of communications*	• *Organised in most of the part* • *Difficult to follow* • *Words are well chosen with some minor improvements needed* *Sentences are mostly grammatically correct and have few spelling errors.*	• *Well organised* • *Cohesive and easy to follow* • *Words are well chosen* *Sentences are grammatically correct and free from spelling errors.*	• *Exceptionally organised* • *Highly cohesive and easy to follow* • *Words are carefully chosen that precisely express the intended meaning and support reader comprehension* *Sentences are grammatically correct and free from spelling errors.*
Effective Communication (Written) *Reflection on Individual Experience:*	• *Lack overall organization*	• *Not well organised in most of the part*	• *Organised in most of the part*	• *Well organised*	• *Exceptionally organised*

Assessment Attributes	Fail (Yet to achieve minimum standard) 0–49%	Pass (Functional) 50–64%	Credit (Proficient) 65–74%	Distinction (Advanced) 75–84%	High Distinction (Exceptional) 85–100%
Clarity and presentation of the report **Percentage for this criterion = 20%**	• *Very difficult to follow* • *Grammatical and spelling errors make it difficult for the reader to interpret the text in many places*	• *Difficult to follow* • *Choice of words needs to be improved* • *Grammatical errors impede the flow of communications*	• *Difficult to follow* • *Words are well chosen with some minor improvements needed* *Sentences are mostly grammatically correct and have few spelling errors.*	• *Cohesive and easy to follow* • *Words are well chosen* *Sentences are grammatically correct and free from spelling errors.*	• *Highly cohesive and easy to follow* • *Words are carefully chosen that precisely express the intended meaning and support reader comprehension* *Sentences are grammatically correct and free from spelling errors.*
Knowledge and understanding of Demonstration functional code meeting all specifications: **Percentage for this criterion = 25%**	Demonstrates a partially-developed understanding of functional code	Demonstrates a functional knowledge of functional code meeting some specifications	Demonstrates proficient knowledge of functional code meeting some specifications	Demonstrates advanced knowledge of functional code meeting all specifications	Demonstrates exceptional knowledge of functional code meeting all specifications

The following Subject Learning Outcomes are addressed in this assessment	
SLO a)	Work cooperatively to plan, design, produce and manage a software prototype utilising advanced techniques and where applicable, emerging technologies.
SLO b)	Reflect on the development of a project from a variety of interpersonal and technological perspectives.
SLO e)	Demonstrate software engineering skills required in a software development team.
